Rail Freight Corridor
North Sea – Baltic

Outlook on TCRs on RFC NS-B

RAG/TAG

Date: 11th October 2023
Frankfurt (Main)

Funded by the
European Union

Impact sheets for selected major Temporary Capacity Restrictions (TCR)

Foreword

On RFC North Sea – Baltic we introduced the **TCR Impact sheets** to present in one glance general and important information about upcoming TCRs. These impact sheets highlight **some infrastructure works which have a big impact** on international rail freight traffic along RFC North Sea – Baltic.

Disclaimer:

The content of this document has been compiled with meticulous care based on information available at the publication date. However we cannot assume any liability for accuracy and accept no liability for damages suffered as a result of defects of this document.

For detailed and complete customer information we kindly refer to the information which is available via the involved national Infrastructure Managers.

Further information (e.g. in form of an excel list on all planned TCR) is available on the website of RFC NS-B under link: http://rfc8.eu/customer/temporary-capacity-restrictions/

Version 1.1 for timetable 2023, 2024 and 2025

Publication Date: September 2023

Coordination process of the RFC North Sea – Baltic IMs (1)

Timeline of coordination

Different types of TCR require a different deadline for final coordination:

- Major impact: 18 months before the start of the annual timetable
- High and Medium impact: 13,5 months before the start of the annual timetable
- Minor impact: 5 months before the start of the annual timetable

Coordination between neighboring IMs:

IMs coordinate their TCRs with international impact in a regular coordination processes between two or three neighboring IMs on the Corridor during coordination meetings.

The result of this coordination is:

a) a common agreement between the involved IMs about coordinated TCRs linked to the timing of the TCR and describing the impact on capacity as far as it is known and

b) a common understanding of open issues which have to be solved and a timeline how to continue with the unsolved issues.

Conflict resolution process:

The RFC TCR Coordinator reports unsolved conflicts on Corridor lines to the Management Board directly when it becomes clear that the coordination did not lead to sufficient results.

IMs' experts with relevant knowledge of planning TCRs and of planning timetables will work on proposals for alternatives to find solutions. The management of the IM(s) where the works take place, is responsible for a final decision. The results will be reported to the management of the affected IMs and MB of the involved corridor.

Coordination process of the RFC North Sea – Baltic IMs (2)

Involvement of applicants

Each IM has its own national agreements, processes and platforms to consult and inform their applicants about TCRs during the various phases. These processes are described in the network statement of each IM.
At Corridor level, the involvement of applicants is organised in the following way:

1) Regular meetings of the Railway Undertaking Advisory Group (RAG) and Terminal Advisory Group (TAG) are used to discuss issues related with TCRs.
2) Regional platforms (like Bau Informations Dialog) are used to inform and consult international Freight RUs. See example below.
3) Additional meetings with applicants, to discuss and resolve open issues, will be treated on a case by case basis

Examples from nowadays practice:
- Elbtalgruppe where TCRs and traffic concepts are consulted and discussed by DB Netz / Spravazeleznic CZ and the involved RU's
- BeNeDe-Gruppe where TCRs and traffic concepts are consulted and discussed by DB Netz / ProRail / Infrabel and the involved RU's

Impact of TCR TT 2023 at Infrabel

Impact on International Rail Freight

- Deviations: L24/1-L40-L36A-L36
- Estimated extra running time: TbD
- Restrictions for ad-hoc requests: no
- Restrictions in train parameters: no
- Restrictions in container profile: no
- In annual timetable: no, timetables adapted at the latest 4 weeks before operation

Major Capacity Restriction

- Section: Aarschot - Hasselt
- Typ: Total Closure
- Period: 28.10.2023 (00:00) – 06.11.2023 (4:00)
- Type of works: Signalling ETCS

Impact of a major TCR in 2023 and 2024 at LTG Infra

Section Žeimiai-Lukšiai

Map view

Impact on International Rail Freight

- percentage of rerouting or cancellation:
  - 10-15 % cancelled, rerouting via deviation line depends on the traffic volumes
- Deviations:
  - Vilnius-Turmantas-LV-Rokiškis-Radviliškis
- Restrictions in train parameters: no
- Restriction in container profiles: no

Major Capacity Restriction

Location: Žeimiai - Lukšiai
Type:
- Partial closure
- Period: continuous closure 01.2023 – 12.2024
- Works: Catenary installation

- **Benefit for RUs when the works are finalized:**
  - Electric traction
- - Heavier trains
- - Shorter running times

- **Impact on freight traffic during TCRs:**
  - 10-15 % trains is expected to be cancelled
  - rerouting possible via Vilnius-Turmantas-Latvia (Daugavpils)-Rokiškis-Radviliškis but necessity depends on the future traffic volumes

- **When coordination takes place with neighboring IMs and RUs?**
  - Before planning the works it was agreed with LDz to keep the deviation line open
  - Coordination with LDz about rerouting trains will take place, when exact number of affected trains will be known. The same with RUs.

- **When and how do RUs receive alternative timetable for the trains that were planned for the infected running days?**
  Draft 2 months prior to the first day of works
  Final 1 month prior to the first day of works

Impact of TCR TT 2024 at ProRail

Section Apeldoorn - Amersfoort

Map view

Impact on International Rail Freight

- Cancellations: no
- Deviations: national rerouting via Deventer – Arnhem, international rerouting via Emmerich - Meteren
- Estimated extra running time: 30 – 90 minutes
- In annual timetable: No

Major Capacity Restriction

- Amersfoort – Apeldoorn / Utrecht
- Type: Total Closure
- Period: see calendar
- Type of works: renewal infra lay out
