Publication of Pre-arranged Paths (PaPs) for Timetable 2022

Dear Madam, dear Sir, dear Applicants,

I am pleased to announce that the **Pre-arranged Paths (PaPs) for TT2022** are now published and accessible in the Path Coordination System (PCS), the unique booking tool for PaPs, and ready for you to order via the following link <http://pcs.rne.eu/>.

To simplify your selection of PaPs, please find attached to this letter the new **DigiCat TT2022**, which provides all details about the **long distance PaPs** and the **individual PaP sections** displayed in our schematic map below:

After your PaP selection I am looking forward receiving your path requests via PCS until the 12th April 2021. As the C-OSS I will decide on the pre-booking results taking the priority rules into account, which have been adopted by the Ministries of Transport along the Rail Freight Corridor. To support your traffic planning you will then receive a preliminary information about the pre-booking results by the 26th of April 2021.

The draft and final timetable offer will be published on the 05th of July 2021, respectively on 23rd of August 2021 via PCS.

Please find further details on the product on our website, in PCS and in the Customer Information Platform (CIP), together with all relevant information on the procedures for requesting and allocating capacity (Corridor Information Document section 4).

And please do not hesitate to contact me for any questions you might have or support you need while requesting your international path.

Yours sincerely

Felicia Riedl
Your C-OSS Manager
