

Rail Freight Corridor  
North Sea – Baltic

*Rail Freight Corridor North Sea Baltic – Your East West Rail Bridge across Europe!*

## Terminal Information in Corridor Information Document

RAG/TAG meeting

25<sup>th</sup> of September 2019, Warsaw

Weronika Karbowski, Managing Director

Co-financed by the Connecting Europe  
Facility of the European Union

On 1<sup>st</sup> of June 2019, Commission Implementing Regulation (EU) 2017/2177 of 22 November 2017 on access to service facilities and rail-related services came into effect.

The Regulation **specifies the minimum information that operators of service facilities must provide** in a service facility description for the service facility and for the services, for which they are responsible.

The Regulation also provides the rules on the content of requests for access to service facilities and the procedures for applying and allocating capacity in such facilities, including the rules on response to requests, for resolving conflicting requests, etc.

EU legislation requires that all operators provide non-discriminatory access to service facilities and to the supply of rail-related services in these facilities and that they publish a description of the facility and the services provided.

SFO may comply with its obligation:

- ✓ **by publishing the information on its web portal or a common web portal** and providing the infrastructure managers with a link to be included in the network statement;
- ✓ **by providing the infrastructure managers with the relevant and ready-to-be-published information** to be included in the network statement. In order to facilitate gathering the information RNE has elaborated Common template for Service Facilities available under the link: <http://www.rne.eu/downloads/>

Another way possible is to publish the information in the European Rail Facilities Portal. The Portal is set up to provide easy on-line access to such information, free of charge and may be found under the link: <https://railfacilitiesportal.eu/>

In the light of above mentioned legislation RFCs are elaborating an updates of Book 3 of the Corridor Information Document containing the terminal list.

Question to Terminal Advisory Group Members:  
What is the state of play in the implementation of SFO Regulation?

# Thank you for your attention!
